Definition of Article

Articles are basically a type of determiners.

Determiner covers many classes of words in which there are articles (definite and indefinite articles), adjectives and pronouns.

Types of Articles

There are three main articles – ‘a’, ‘an’ and ‘the’. These three articles can be divided in two classes.

1. **Definite Article (The)-** ‘The’ is known as definite article because it is used to point out specific person or thing.
e.g.- The Moon and the Sun etc.

Uses of ‘The’

There are following common rules of using definite article ‘the’.

1	‘The’ is used before a particular or specific person, place or thing. e.g- 1) Let us go to the club 2) This is the boy who won last match.	8	‘The’ is used before names of races or nations. e.g- 1) The English ruled over the Indians. 2) The people of India speak many different languages.
2	‘The’ is used before common nouns which are names of things unique of their kind. e.g- 1) The Earth is our planet 2) The world is a pleasant place 3) The Sun gives us life	9	‘The’ is used before names of newspapers, holy books, famous buildings, ships, historical events. e.g- 1) I read the Hindustan newspaper. 2) The Ramayana is a famous book
3	‘The’ is used before name of directions and dates of months. e.g- 1) The Sun sets in the West 2) I got my dream job on the 10 th of May.	10	‘The’ is used before proper nouns, common nouns, abstract nouns and material nouns to make them common nouns. e.g- 1) Kalidas is the Shakespeare of India 2) The milk of our dairy is pure.
4	‘The’ is used before names of mountain ranges. e.g- 1) The Himalayas 2) The Alps Note- Never use ‘the’ before names of single mountains or hills. e.g- 1) Montblanc (not the Mont blanc) 2) Everest (not the Everest)	11	‘The’ is used before name of musical instruments. e.g- 1) Rani plays the guitar 2) Ranjan plays the harmonium.
5	‘The’ is used before names of rivers, seas, canals, oceans, valleys, deserts and forests. e.g- 1) The Atlantic Ocean 2) The Ganges	12	‘The’ is used before name of inventions. e.g- 1) The cure for many types of cancer has not been found... 2) Who invented the television?

6	'The' is used before superlative degrees of an adjective. e.g- 1) You are the best boy in my class 2) Kashmir is the most beautiful state in India	13	'The' is used before parts of body. e.g- 1) He was hit by the rod in the back 2) He got an injury in the head.
7	'The' is used before a whole class. e.g- 1) The cow is a pet animal. 2) The horse runs very fast.	14	'The' is used before political parties. e.g- 1)) The Democratic Party 2) The British Labour Party

2. **Indefinite Articles(A, An)**- 'A', 'an' are known as indefinite articles because both are used to point which are not specific nouns.
e.g- A man. An organisation and an egg.

Uses of 'A'

- 'A' is used before words beginning with consonants.
e.g- a news, a patient, a cup
- 'A' is used before the words which begin with a vowel but have a sound of a consonant.
e.g- A university, A European

Uses of 'An'

- 'An' is used with words that begin with a alphabet (a,e,i.o.u)
e.g- an orange, an egg, an octave
- 'A/an' is used before the adjective if adjective comes with a noun.
e.g- a nice book, an intelligent boy, a good prize.
- 'An' is used before words beginning with consonants having vowel sounds.
e.g- An FIR, An Msc

Omission of Articles

- We should not use 'the' before proper nouns.
e.g- Kolkata, Rashmi, Sunday and so on
Exception
Here are some exceptions of this rule like we say The Punjab, The USA, The Deccan (Group of States)
- We should not use 'the' before subjects and arts.
e.g- 1) I don't like **drawing**
2) I am reading a book of **Poetry**
- When we use abstract nouns in general sense, we omit 'the'
e.g- 1) **Honesty** is the best policy
2) **Health** is Wealth

ACTIVITY TIME

GROW YOUR OWN BREAD MOLD

Mold spores just need the right environment to grow and flourish. Grow your own bread mold in three different types of environment with this printable science activity for 6th grade.

You will need:

- 3 slices of bread
- Water
- Marker
- 3 resealable plastic bags

Instructions:

- Place a slice of bread in each bag and seal it properly.
- Number each bag with the marker.
- Add some water to 1 bag and put it in a dark place.
- Put the second bag in a bright sunny place.
- Put the third bag in the refrigerator.
- Check each bag for a week and record the changes you see.
- At the end of a week, each bag will have a different kind of mold growth.

Explanation:

Bread is a good food source for some kinds of fungus. The air around us is full of microscopic mold spores that require the right conditions to settle on an organic substance and digest it.

- Click the pictures of all the samples 1, 2, 3 on fifth day and stick on your worksheet.

(Note: You can also use chapatti if bread is not available.)

Record your observation in the table given below.

- Write this experiment neatly with the headings-
-Aim, Materials Required, Procedure, Observation, Conclusion.
